About Us

Always Better For The Future..

The commercial that we maintain by not compromising the service and product quality principles in the sector our company, which aims to be a better supplier, solution partner in our lives, today in the international and domestic market; all kinds of mechanical processes, aluminum profile, door and window systems needed by the industrial, construction and industrial sectors, cnc aluminium steel profile cutting and processing center, laser machine track, advanced our company, which gives life to the sector with machine tracks, special manufacturing and solutions, continues to strengthen.

Being accessible in service and improving quality is our biggest goal.

✓ High Quality Systems

✓ Powerful Investment

✓ Good Planning

✓ Continuous Innovation

Corporate

We Are Working To Be The Leader Of The Sector

Knowledge and Experience

With our sectoral knowledge and experience from the past years, we are walking into the future with confident steps.

Team Work

With our quality and zero problem policy, we develop professionally and provide solutions

Strong Machinery

With our strong investments, we add power to your business with all the equipment machine track needed by the sector.

KOÇMET METAL

The Right Timing

Hassle-Free Delivery

System Solutions

Our Competent System Solutions

“

With our sectoral knowledge and experience from the past years, we are overcoming technological difficulties

The Industry's Trusted
Solution Partner

Mechanical Working

We provide the ability to easily solve various industrial, mechanical processes.

Metal Operations

aluminium, steel,
canopy, frontage,
door work

Laser Cutting

With the wide laser cnc machine park, laser cutting in desired sizes

Door and Window Systems

Koçmet hardware systems add aesthetics and quality to your living spaces.

Handrail Systems

Hem dekorasyonu
Handrail systems that keep both decoration and safety in the foreground.

Solution Partnership And equipment Procurement Service

We are powering your business with our extensive machine track.

System Solutions

Mechanical Working

With our team, which is experienced in the light of technology and has developed itself at the highest level in technical matters according to the conditions of the day, high quality service is provided to our customers' requests with precision double-head and single-head angled cutting saws, CNC processing centers, eccentric presses, hole drilling drills, thermal insulation barrier assembly track.

In our production line, drilling, countersinking, angled and flat precision cutting, thread cutting, milling operations, flow drill and sanding operations are carried out with very precise tolerances, in full compliance with the technical drawings from our customers.

Precise Meticulousness and Quality Monitoring

Our products are subject to rigorous quality control and when they're ready to ship, we offer a range of smart logistics solutions to ensure they reach you when you need them. Lightweight aluminum has its own logistical advantages – each truck can carry three times more aluminum parts than steel – allowing us to pass on benefits to our customers in terms of cost and environmental impact.

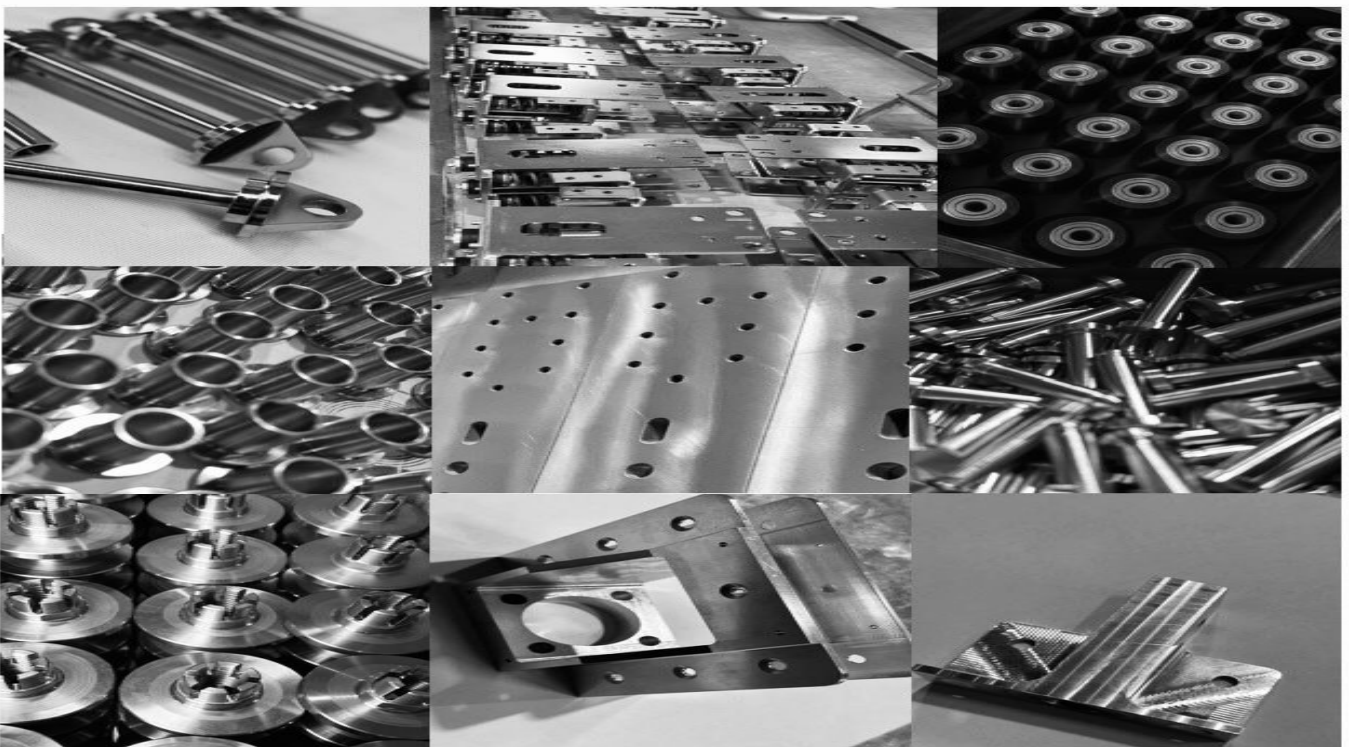

Precision Manufacturing

Koçmet specializes in the production of high-precision components with advanced manufacturing technologies and strong engineering capabilities.

All parts are manufactured through CNC machining, laser cutting, and precision processing in full compliance with technical drawings and tight tolerances. During the production process, required sub-assembly operations are completed within our factory, and all products are delivered ready for integration. From serial production to custom manufacturing, quality, consistency, and reliability are ensured at every stage.

- ✓ Tight tolerance manufacturing
- ✓ High surface quality
- ✓ Repeatability in serial production
- ✓ In-house sub-assembly within the factory

Koçmet stands for precision in every detail and sustainable quality.

Before our products are ready to be shipped there are a number of technical processes.

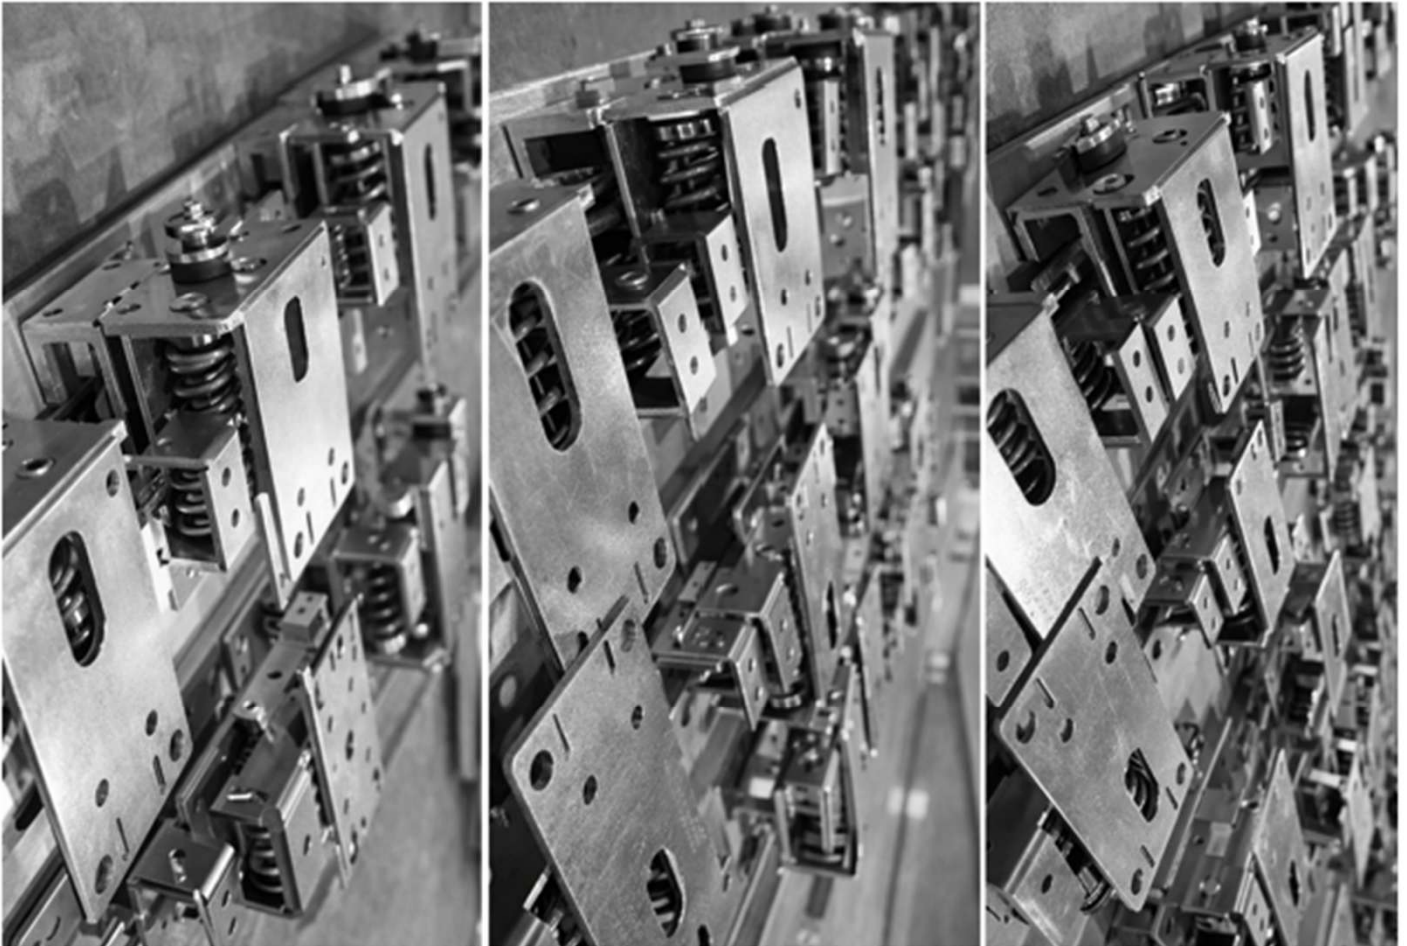

Design and Engineering

Perfect workmanship with all necessary software and computing techniques by using advanced technology.

0 Politics of problems

With the 0 problem policies we have adopted, we save our customers from possible problems during the assembly phase.

System Solutions

Metal Works, Assembly & Construction Solutions

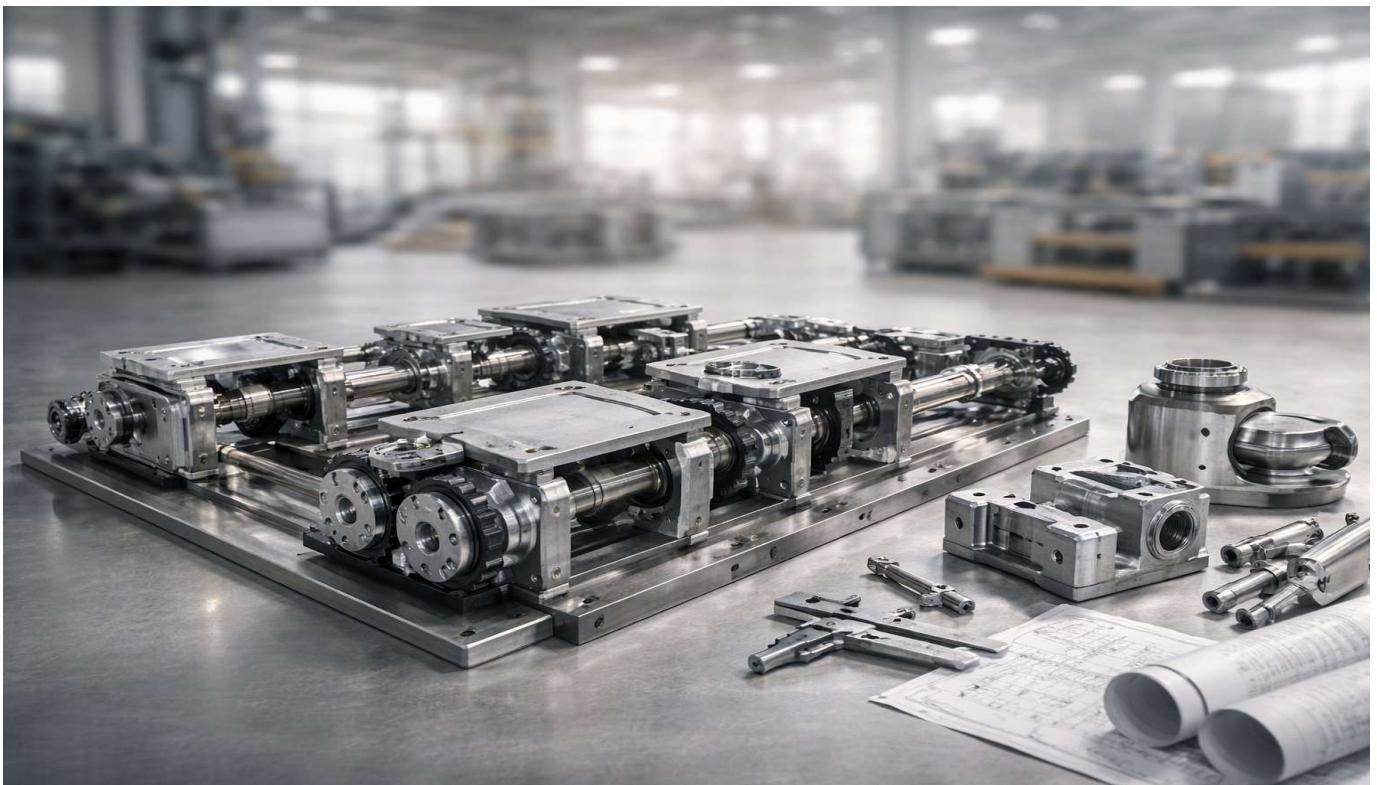

- ✓ Cable Car Systems Manufacturing
- ✓ Train & Metro Systems Metal Fabrication
- ✓ Cabin Doors & Mechanical Systems
- ✓ Door & Window Systems
- ✓ Aluminium & Steel Facade Systems
- ✓ Curtain Wall Applications
- ✓ Glass Railing & Balcony Systems
- ✓ Structural Frames & Steel Constructions
- ✓ Mechanical Assembly & System Integration
- ✓ Industrial Steel & Aluminium Fabrication
- ✓ Project-Based Custom Manufacturing & Assembly
- ✓ Railway System Components Production
- ✓ Machine Parts Manufacturing & Assembly
- ✓ High Precision Laser Cutting & CNC Machining

System Solutions

- ✓ Industrial Steel & Aluminium Fabrication
- ✓ Project-Based Custom Manufacturing & Assembly
- ✓ Railway System Components Production
- ✓ Machine Parts Manufacturing & Assembly
- ✓ High Precision Laser Cutting & CNC Machining

System Solutions

Laser Cutting

We serve with our Cnc Laser Cutting Machines with a cutting capacity of 22 mm in plate sheets, 15 mm in stainless sheets, and 12 mm in aluminum sheets.

System Solutions

Door and Window Systems

Koçmet, which makes your life easier with its functional details, unique designs and features of being applied to every window, It adds aesthetics and quality to your living spaces.

- ✓ Aluminum Doors
- ✓ Sliding Systems
- ✓ Windows
- ✓ Fixed Glass Partition
- ✓ Cable Car Door and Parts
- ✓ Aluminum Doors

System Solutions

Railing Systems

Today, one of the factors used in terms of both decoration and security is railing systems.

Railing systems are attached to parts of buildings such as balconies, windows, stairs.

Railing systems are available in profile color options as round handrails.

- ✓ Aluminum Railing System
- ✓ Glass Railing System
- ✓ Stainless Steel Railing System
- ✓ Brass Railing System
- ✓ Handrail System
- ✓ Steel Painted Railing System
- ✓ Special Design Railing System
- ✓ Illuminated Railing System

System Solutions

Cable Car Systems

With its functional engineering expertise, custom designs, and production capabilities aligned with international standards, Koçmet provides project-based manufacturing and supply solutions for cable car systems. All components are produced in accordance with client technical drawings and project-specific requirements. Sub-assemblies are completed in-house and delivered ready for integration.

- ✓ Cable Car Cabin Doors (Pre-assembled)
- ✓ Station Structures in Steel and Aluminium
- ✓ Mechanical and Structural Components
- ✓ Project-Based Custom Manufacturing
- ✓ Production According to Technical Drawings
- ✓ Pre-assembled Product Groups and Component Supply

System Solutions

Train Systems

With its strong engineering background and precision manufacturing capabilities, Koçmet delivers project-based manufacturing and supply solutions for train systems. All production is carried out strictly in line with approved technical drawings and project requirements. Pre-assembly processes are completed in-house to ensure efficient integration and high-quality output.

- ✓ Train Door Systems (Pre-assembled)
- ✓ Subframes and Load-Bearing Structures,
- ✓ Interior and Mechanical Components
- ✓ Tailor-Made Production for Railway Projects
- ✓ Compliance with European Standards (EN)
- ✓ High-Precision Manufacturing & Component Supply

Solution Partnership and Equipment Supply Service

With our operations department, we provide services in the fields of import, export, customs clearance, legislation and logistics, by undertaking all kinds of foreign trade operation processes.

While we take steps to set industry standards in all projects with our well-equipped and expert team, we maximize the profit potential and value to reach products, resources, promotions and wider markets.

Corporate

Our Principles

Koçmet Metal adopts and applies the principles of "Quality Policy Management System" as a lifestyle. Our principle is that the whole world benefits from our thinking, production and services. We believe wholeheartedly that we will contribute to the economy of Türkiye and the world.

WE ARE FULLY READY

- ✓ To understand our customers' requests and to deliver correctly,
- ✓ Our company on an international scale; to become an industrial organization that can produce products at a competitive level in terms of quality, price and efficiency,
- ✓ To work quickly and efficiently by observing the zero error rule,
- ✓ To adopt the concept of continuous improvement and development,
- ✓ To our employees with the aim of spreading our quality policy to all employees to accept education as a duty,
- ✓ To comply with legal terms and regulations,

Corporate

Environmental Policy

- ✓ To use the most appropriate materials and technology that do not harm human and environmental health,
- ✓ To comply with relevant legal regulations and management system standards,
- ✓ We encourage our employees, suppliers and subcontractors to protect the environment.
- ✓ Keeping hazardous and non-hazardous wastes to a minimum and ensuring that they are recycled or disposed of in accordance with legal regulations,
- ✓ Periodically inspecting, reviewing and making continuous improvement in order to minimize the environmental effects of processes that may cause water, soil, air, noise and visual pollution,
- ✓ To apply saving methods in the use of energy, water, fuel and natural resources,
- ✓ In order to transfer a healthy and clean environment to future generations, to determine the goals and targets for reducing the use of resources by making analyzes to control the environmental dimensions and effects.

Certificate

CERTIFICATE

Koçmet Metal Ürünleri Sanayi ve Ticaret A.Ş.

Head: İçerenköy Mah. Üsküdar – İçerenköy Yolu Cad.
Aydoğan Apt. No: 14 / 5 Ataşehir İstanbul Türkiye
Factory: Hatip Mah. Kadife Sk. B Blok No: 3 – 4 Haliç Sanayi
Sitesi Çorlu Tekirdağ Türkiye

The above-mentioned organization implements and maintains a management system in the following scope, and its compliance with the standard has been approved by KingCert.

ISO 9001:2015

Quality Management System

Scope : Processing (Machining and Welding) and Assembly of Metals.

IAF/EA Code: 17

ACCREDITED
Management Systems
Certification Body
MSCB-196

This certificate is valid during above mentioned company perform the requirements of ISO 9001:2015 standard and fulfill all responsibilities to KingCert.

Certificate Publication Date : 20.03.2024

Cert. Last Issue Date : 20.03.2024

Cert. Expiry Date : 19.03.2025

Cert. Period Exp. Date : 19.03.2027
